WWW.SWR-FEST.COM

So one more time I present you guys with a little special report on the oldest Metalfest done in Portugal, the SWR Barroselas Metalfest, already in its twelfth edition and giving no proof of ending here, so without further more words here are the forty two bands that will be in SWR XII, beside bio and photo of the band I did a couple of questions equal to all bands, they were: 1- Is this your first gig in Portugal? 2- What are your expectations about Barroselas Metal Fest? Do you expect a crazy crowd or what? And do you know anything about this fest? 3- What can the Portuguese metal heads expect from you in stage? Send greetings to all metal fans in Portugal in your own way.. Of course for Portuguese bands the questions were a little different: 1- Is this your first appearance in SWR? 2- What are you expectations regarding your performance in the Metalfest? 3- What's your opinion regarding the oldest still active Metalfest in Portugal. So, enjoy and show up in Barroselas for one more SWR…

BLACKLODGE comes from France and plays a unique kind of Black Metal with much Industrial influences. Formed in 1998, they released one year later their first demo, 'InnerCells', being followed by an Ep in the same year, 'Prince Of Dark Cellars' and a couple of full lengths, 'Login:Satan' in 2003 and 'Solarkult' in 2006. The band had a couple line-up changes in the meantime being now formed by, Jessy (Bx), Narcotic (Gt) and Saint Vincent (Vk/Gt/Dr)…

B1- Yes, first time we will play there.

B2- We had very positive feedback from friends who visited this fest, so we are impatient to play there.

B3- People will see the new face of Blacklodge that will come aside with the forthcoming release. We are also working on a video support to challenge a complete black Indus magic on stage. Hail world technological downfall and see you there in SWR.

AKERCOCKE

AKERCOCKE is one of those bands that need few words for introduction. Formed in the UK in 1997 after the split of Salem Orchid, they released their first demo in 1998 as a promo, followed by their debut, 'Rape Of The Bastard Nazarene' one year after a brutal release of Black/Death Metal, then the band entered in a successful two year gap between each full length, releasing 'The Goat Of Mendes' in 2001, 'Choronzon' in 2003, 'Words That Go Unspoken, Deeds That Go Undone' in 2005 and finally until now, 'Antichrist' in 2007. The band suffered some line-up changes throughout the years being now, David Gray (Dr), Jason Mendonça (Vk/Gt), Matty Wilcock (Gt), Pete Benjamin (Bx) and Martin Bonsoir (Kb).

A1- This is Akercockes 3rd visit to Portugal, were looking forward to it, it's a great place.

A2- Akercocke have played SWR a few years ago, the band been hoping to get back there and its finally happened, the festival should be brutal man, the Portuguese metal heads are mad and it will be a blast.

A3- You can expect a frenzy of blasting satanic violence from Akercocke at the SWR, followed by a frenzy of blasting alcohol consumption. See you in the pit!!!!!

SPEARHEAD comes from the UK with their Black/ Death Metal to unleash upon us. They were formed in 2003 releasing a couple of full lengths until now, 'Deathless Steel Command' in 2005 and two years later 'Decrowning The Irenarch'. The line-up consists of Barghest (Bx/Vk), Nephilim (Gt), Invictus (Gt) and Vortigem (Dr)…

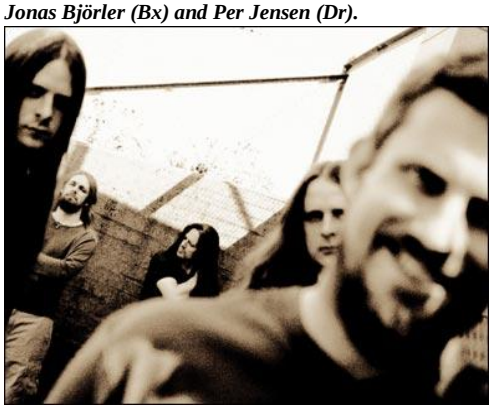
S1- Yes, it is. We couldn't make it to Portugal on the last tour...

S2- I think it will be a really good festival. The line-up is great. And I think the Portuguese crowd will be good too. What I know is what I have seen from previous years and it seems to be getting better each year as a festival.

S3- What they can expect? They should listen to the 'Decrowning...' album, then expect something even more violent and hard-hitting...Hellish greetings to Portuguese metal diehards - see you at SWR Fest!

THE HAUNTED

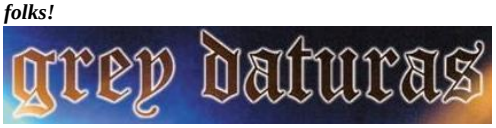
THE HAUNTED are the headliners for Friday and do I need to say more? Formed in Gothenburg in 1996, after the demise of At The Gates, they soon released a demo in 1997 being that followed by six full lengths until now, 'The Haunted' in 1998, 'Made Me Do It' in 2000, 'One Kill Wonder' in 2003, 'rEVOLVEr' in 2004, 'The Dead Eye' in 2006 and in the past year, 'Versus'. With some ins and outs, the band that plays an intense Thrash/Death Metal nowadays is formed by, Peter Dolving (Vk), Patrik Jensen (Gt), Anders Björler (Gt), Jonas Björler (Bx) and Per Jensen (Dr).



TH1- No, we've played several shows at tiny clubs in Portugal before. We really love it, great people, good weed, intelligent conversation and REALLY sexy women…

TH2- We never have expectations anymore that way we always come prepared for anything. In some ways we are more of a combat team than a band that way.

TH3- As I said, we never have expectations. However, the more intense the audience, the more intense show. But the basic rule for us is ALWAYS: Stand firm, and rock the fuck out of everyone. We are, I'm proud to say, one of the most intense metal bands in the world and we intend to keep it that way. Why? Because we love metal and hardcore:) About the festival? I really have no clue. I live in a house in the woods and I don't care about what goes on in a world that doesn't hold love and respect as values of greater importance than money or power. As a band we have the basic attitude that things are what we make them, if we try to act with respect and share a positive vibe, we've done the first part right and whatever happens after that is stuff outside of our control... A simple promise; We will rock like there is no tomorrow, and we invite you to participate. Life is short, let's live it in a way that we all deserve instead of wasting away in nothingness! Peace folks!



Formed in 2001, Australia's GREY DATURAS is a very hard to define band. Going through Drone to Noise, they debut with the self titled album in 2002, followed by 'Dead In The Woods' in 2004 and 'Return To Disruption' in 2008, alongside a bunch of splits, Ep´s and live recordings. Being a trio the band consists of Robert MacManus (Gt), Bonnie Mercer (Gt) and Robert Mayson (Dr).

GD1- Our first gig in Portugal was at Braga in 2007, we played Barroselas Metal Festival. We were on tour in Portugal and Spain with our friends Monarch from France and they booked us this show. Our first Portugal show on this tour is again at Barroselas Metal Festival, our second is in Lisbon on Saturday 2nd at a venue called ZDB.

GD2- I'm not expecting too many people to go wild when we play, aside from not many people knowing who we are in Portugal, we're a pretty slow down tempo band, we drone out a lot and doom it right down to a primitive slow pace, the last time we played Barroselas most of the people watching us were lying on the floor feeling the vibrations, thats not usual for us as we seem to affect people physically as opposed to musically. The heavy low end drone really hits people sonically.

GD3- Expect the slowest most droned out psychedelic shit ever, we used to be a super harsh noise band back in the day, after years of touring and recording we've really hit our stride and started jamming a lot more, it's now this unspoken vibe of slow and heavy psychic drone jams. I know this sounds all hippy and shit, but hey, Pink Floyd and Black Sabbath were hippy at one stage, look how awesome they were. On a closing note, I can't wait to get down to Portugal and see our fans and friends, we met a lot of good people the last time we were there and I can't wait to see them all again.

RECTAL SMEGMA plays GrindCore/Death Metal and they come from The Netherlands. Formed in 2003, they released their debut in the form of a full length in 2005, 'Licking A Leper', followed only in 2009 by a split with

Portuguese band, Ultrapodre and their second full length, 'Keep On Smiling'. The band consists of Frans (Gt), Yannic (Vk), Madhur (Bx) and Walter (Dr).

RS1- Yeah it's going to be our first gig in portugal and my first time ever in portugal for that matter.
RS2- I have not heard about this fest untill we were going, i've seen pics and (great) lineups from last year and earlier years and the stage n stuff looks really cool! We've been to obscene extreme last year and really had a blast which will be hard to beat, but barrosselas looks really cool!!
RS3-Slamming beats gurgling vocals and loud music, just some crazy dutch guys trying to give everyone a good time. humour is very important to us! PUT ON YOUR SWIMMINGTRUNKS 'N DANCE!

GAMA BOMB hails from Ireland where they were born in 2002. In the same year was released their first demo, 'The Survival Option' and two years later they unleashed one more, 'The Fatal Mission', seeing 2005 the release of the debut full length, 'Survival Of The Fastest' followed by 'Citizen Brain' in 2008 their last until now. This Thrash Metal horde consists of Joe McGuigan (Bx/Vk), Luke Graham (Gt), Domo Dixon (Gt), Philly Byrne (Vk) and Paul Caffrey (Dr).

GB1- No, we visited Portugal last autumn on the Thrashing Like A Maniac Tour. We played in Cacilhas in Lisbon, Porto and Faro and we had a fantastic time. We love to drink Super Bock and the girls were beautiful - and everyone loves their thrash metal!
GB2- Yeah, we're expecting a crazy crowd of course! Portugal is one of our favorite countries to visit in Europe, because people really respond to you and go totally crazy. We don't know much about the festival, but we're looking forward to getting there, hanging out, meeting all the people and watching some great bands.
GB3- We're going to play a mixed set of songs from our first two albums - and we've got a brand new song, too. They can expect us to be drunk, fast and thrashing. We'll see you out there, and you'd better have a few beers with you! Keep it thrash!

If we speak of Black Metal in Portugal we've to know CORPUS CHRISTII. Formed in 1998 by Nocturnus Horrendus, the main mind behind it, they released their first demo in 1998, 'Anno Domini', followed by full lengths in 2000, 'Saeculum Domini', 2001 'The Fire God', 2002 'In League With Black Metal', 2003 'Tormented Belief', 2005 'The Torment Continues' and 2008 'Rising', in between they unleash a couple splits and Ep's. For recordings the band consists only of Nocturnus Horrendus (Vk) but live he is helped by, J (Gt), Angel-0 (Gt), Norgaath (Bx) and Menthor (Dr).

CC1- No.
CC2- We'll do a concert with no difference regarding other concerts, it would not be a special one just because is the SWR Fest. Each concert is a Ritual and that is what we'll demonstrate to the audience. Normally we prefer smaller concerts with a more focused audience in what we do, but we have to deal with certain facts by playing in a Fest like this.
CC3- I've immense respect for the organizers and wait that they can continue with this for many years. Now, of course that there have been always better years than others, not always we can have everything to our taste of course.

MOURNFUL CONGREGATION is a Funeral Doom band coming from Australia formed in 1994, the same year the released their first demo, 'Weeping', followed by a couple more, 'An Epic Dream Of Desire' in 1995 and 'Tears From A Grieving Heart' in 1998. After a couple splits the band released their first full length, 'The Monad Of Creation' in 2005, then a couple more splits and the second album is out this year, 'The June Frost'. The band consists of, Damon Good (Gt/Vk), Adrian Bickle (Bx) and Justin Hartwig (Dr).

MC1- Yes, this is our first time ever in Portugal.
MC2- We've heard only positive things about this fest and the crowds. Some great bands have played previously and there are also some excellent bands on this year so our expectations are high.
MC3- A vision of misanthropy and extremity. A suicide choir from the deep south of this earth. Deserved doom shall be unto Portugal.

Coming from the USA, ORIGIN is a Technical Death Metal band unleashing their brutality since1997. One year later they released their only demo, 'A Coming Into Existence', followed by the debut full length in 2000, 'Origin', after that one came a couple more in the shape of 2001 'Informis Infinitas Inhumanitas' and 2005 'Echoes Of Decimation'. This last year of 2008 saw the release of their fourth album, 'Antithesis' another piece of shed brutality. After some changes throughout the years the band consists of, Paul Ryan (Gt/Vk), Jeremy Turner (Gt/Vk), John Longstreth (Dr), James Lee (Vk) and Mike Flores (Bx).

O1- Yes & We are as a whole very excited to play & experience your culture!!!
O2- I have had many fans write via email/letters to please come to Portugal so I imagine this show is going to be fun!!! Almost always there is a lot of intensity at our shows... Unfortunately not but more details will be presented to us soon.
O3- Louder faster & tighter than anything we have ever done on cd!!! We can't wait to come & play your country!!! It's gonna be Fun!!!

Coming from Portugal, THE FIRSTBORN begun their voyage as The Firstborn Evil in 1995, having released a demo, 'The Awakening Of Evil' in 1996 and a full length, 'Rebirth Of Evil' in 1998 under that banner. Then happened the change of name and as The Firstborn they released a couple of successful albums, 'From The Past Yet To Come' in 2000, 'The Unclenching Of Fists' in 2005 and 'The Noble Search' in 2008. Their Black Metal evolved from the Raw at the beginning to an unique type of Avant-Garde Black Metal. Nowadays the band is formed by Bruno Fernandes (Vk), Nuno Gervásio (Gt), Helder Malícia (Bx) and Rolando Barros (Dr).

TF1- It's the third time that we play in Barroselas, being the first in 2000 and the second in 2005.

TF2- We wait to manage to provide a different moment in the festival, which stick in the memory of the persons ... We are going to play in the last day and know beforehand what the tiredness will be able to do so that it seems to everything sounds the same passing some time – we want to avoid to fall in that category.

TF3- He has been curious to note that our growth while band accompanied by near the growth of the festival itself, there was always from a spirit of mutual help, what still remains today – I myself make part of the technical team of the SWR, and we did some Warm-Up Sessions in last February. That this growth continues for both parts!

Yeah they are back! I'm speaking of one of the bands most awaited by their fans in this edition of SWR, ABSU. A band raised from Hell in 1991, releasing five demos between 91 and 93 until their debut full length was out in that some year, 'Barathrum V.I.T.R.I.O.L', followed by 'The Sun Of Tiphareth' in 1995 and 'The Third Storm Of Cythraul' in 1997. Then they closed their chapter with 'Tara' in 2001, until now when they released in the past February, 'Absu' their fifth album, a blast of Black/Thrash. So, eight years later the band consists of Proscriptor McGovern (Vk/Dr), Aethyris MacKay (Gt/Bx), Zawicizus (Gt/Kb) and Ezezu (Bx).

A1- Yes, as this is also the first European performance for ABSU with the new line up.

A2- I know it shall be captivating and quite spectacular. I have followed the festival's history through the report in Terrorizer magazine, so hopefully, there will be a hellish and barbaric crowd. We await thee.

A3- Mythological Occult Metal Madness & Mysticism! We really look forward to this performance and cannot wait to see you all in Portugal! Ave Immortals!

MORBID DEATH is a Portuguese band coming from the beautiful landscapes of Azores. Formed in 1990, they are one of the oldest bands still active in Portugal, they released a couple demos, 'Nomad' in 93 and 'Shameless Faith' in 97, followed by their debut full length, 'Echoes Of Solitude' also in 97. After that they put out two more Thrash albums, 'Secrets' in 2002 and 'Unlocked' in 2004. Nineteen years later and with some departures in the band throughout the years, they are Ricardo Santos (Bx/Vk), Rui Frias (Gt), Gualter Couto (Dr) and Paulo Bettencourt (Gt).

MD1- In fact it will be our first appearance in Barroselas. I even can say that it will be our first appearance in a festival 100% dedicated to Metal, in the mainland.

MD2- How you should guess, not always is easy for us to go to the mainland for performances. Not because we don't want, but because of the financial aspect. Unfortunately, the air tariffs are not 'friendly at all' though we have the support this time from the Presidency of the Regional Government of Azores and of ANIMA Cultura, entity subsidized by the Câmara Municipal de Ponta Delgada. Without these supports, of certainty that would not be possible for us to go to Barroselas. As for the expectations, simply we want to amuse ourselves during our acting, amusing all the presents. It will be one more opportunity for spreading our work that we are effectuating along ours 18 years of existence. For pointing out, that we also will act to 3 of May with Desire, in Lisbon in the Santiago Alchemist and to 5 of May, with the Headstone and Pitch Black, in Oporto, in the MetalPoint. All are invited...

MD3- It will be the first time in which any element of Morbid Death will be present in the SWR-Barroselas Metalfest, so everything what we know about the Festival, it is due to inquiries in Net and in Mags and of year for year they have been saying that it has been improving in all the aspects. Also we will try to contribute for the SWR of this year still be better a little more. It will be our form of thanking for the organizers because of having bet on us.

One of the most active and well known bands in the Death/Grind scene hails from Spain and they answer by the name of MACHETAZO. Formed in 1994 they soon released their first demo '46 Cabezas Aplastadas Por Un Yunque Oxidado' in 95 soon followed by another in 98, 'Realmente Disfruto Comiendo Cadaveres'. The band then defecated their first full length in 2000, 'Carne de Cementerio', followed by a couple more, 'Trono De Huesos' in 2002, 'Sinfonias Del Terror Ciego' in 2005 and in the past year, 'Mundo Cripta', all this beside a couple Ep´s and a bunch of splits. Throughout the years the band suffered from multiples changes on the line-up, consisting nowadays of Rober Bustabad (Gt), Santi (Bx) and Dopi (Dr/Vk).

M1- No, we played a few times over there, and the Veiga bros have been helping us for years.

M2- Last time we played SWR it was a fuckin' blast and I'm sure it will be another evil metal paradise this year too. Always expect some extreme crowd, Portugal is full of MANIACS.

M3- The band is on his usual old school path, so Portuguese metal heads can expect a real overdose of morbid darkness through some REAL grinding death. This show will be also the presentation over Portugal of our new album "Mundo Cripta" and the new bass player Santi. Hope to meet you all over there, specially the old friends. Let's DRINK, SMOKE and GRIND!!

Formed in 2005, ALCOHOLOCAUST is one of those bands that when they play live few are those who feel nothing, you either can love it or hate it! Hailing from Portugal these guys released in 2006, 'Ensaio Do Diabo their first demo or more a rehearsal, being the proper demo, 'Speed Degredo Metal' released last year. The band is formed by, Blasphemator (Vk), Possessus (Gt), Necrus(Bx),Desekrator(Gt) & JpunkzHardBocker(Dr).

A1- Playing, they say it is!

A2- We expect to be drunk enough to provide a blasphemic unload of decibels and feedbacks, spreading chaos and 'degredo' by those places.

A3- That keeps for many years on providing us three days of infernal drunkness, 'trapice', parasitism, malnutrition, anti-bath, bad smell, 'degredo', mud and blasphemic rock'n'roll. And to give us beer, no?

Maybe the first Viking Metal band hailing from Portugal, GWYDION were formed in 1995. Their first release was the demo, 'Debt To Morrighan' in 98 followed by a couple more, 'First Channeling' in 2000 and 'Augmentation' in 2001, after that silence for seven years until they were reborn releasing their first full length, 'Ynis Mön'. The band consists of, Ruben Almeida (Vk), Kaveirinha (Gt), Daniel César (Kb), Abreu (Dr), João Paulo (Gt) and Paulo (Bx).

G1- Yes it's our first presence in this Festival, and we hope it will be the first of many more!

G2- The expectations are always big for this kind of

Festival, though it should face all the concerts likewise there are a few that are always more special than others, and we wait that this one become a great party surrounded by beer and fun!

G3- Undoubtedly it's with great pride we are able to participate in this festival that already conquered his place of honor in the metal National and International. Few words are to say when the things run well along the years, just to praise the work developed by the whole team of the SWR. We hope that this festival stay here for many more years!

THE RANSACK comes from Portugal with their mix of Thrash with Death Metal in a blend called by the band of Extreme Metal. They began their voyage in this life with the demo, 'Chaotic' from 2002 released a year after the birth of the band. In 2005 they put out the Mcd, 'Necropolis' that was followed by the first full length, 'Azrael' two years later. And as they don't sleep in the work done, they released just this year their second one, 'Vortex'. With a couple changes in the line-up throughout the years nowadays they are Jay (Bx), Shore (Gt/Vk), Loki (Gt) and Zeus (Dr).

TR1- This is our second time that we are present in the SWR, after we have played in the ninth edition of the Festival by time of the promotion of the Ep Necropolis.

TR2- Barroselas it's probably the most important Underground festival in Portugal, that way it's with pride and a privilege in being present in one edition more. We know that we'll have a good audience and excellent conditions like it has been usual.

TR3- Part I've answered in the previous question, it's the biggest and most important National Festival, where it gathers the Portuguese bands and are add a series of International bands of reference, to build a venue that is becoming a cult in Portugal!

Coming from the USA, INSIDIOUS DECREPANCY its quiet an unusual band in the Brutal Death scene, much because is formed just by one person. Born in the year 2000, they made their debut with 'Decadent Orgy Of Atrocious Suffering' in 2002, followed in 2005 by 'The Inerrancy Of Profanation'. The only guy behind the band is Shawn Whitaker although live he has some live session members supporting him.

ID1- Actually no, I've played in Portugal at least 3 different times.

ID2- I expect this fest to fucking crush! Yea, I'm expecting 1000+ peeps and I've known about this fest for about 4 years, so it's gonna be great to finally play!

ID3- They can expect only one thing: TXDM!! And to all metal heads in Portugal, STAY SICK ETERNAL!

DEMON DAGGER comes from Portugal and brings you their blend of Thrash/Speed Metal. Born in 1995 they released their first work in the shape of a demo self titled in 96 followed by one more 'Frenzy Wraith' in 98. In 99 they released their first full length, 'Aftershock' that was followed by 'Inanna Ishtar' in 2003. Six years later, 'Cain Complex' will see the light of day and it will be their third album. Nowadays the band consists of Litos (Vk), Vitor Carvalho (Gt/Vk), Miguel Carvalho (Dr), Paulo Chanoca (Bx) & Gilly Ribeiro (Live Gt).

DD1- No, we played in 2002 also promoting the release of our latest album at the time, 'Inanna Ishtar'! It was a memorable experience.

DD2- We will be going to prepare a quite energetic concert and with great dynamic resonant, using the opportunity to present the most intense registers of our 3rd album " Cain Complex ", which will go out in the day 18 of April. So, we faced this concert with a very high expectation, as soon as it will be the 1st concert after the release of the album allowing testing the reaction of the public to the tracks presented.

DD3- The festival has been growing to a crazy rhythm of year for year, for which we would like to use this opportunity to congratulate the brothers "Veiga ", as well as the remaining organization , for the pledge and dedication that they have been allowing the propagation of this our musical metal "world". Our congratulations for everything.

IN THA UMBRA exists since 1996 in the Portuguese Underground, but their history goes back until 1991 where they existed under the name Bowelrot releasing five demos. Evolving to the current name, they debuted with the demo 'Of The Singing Dusk' in 96, that preceded their first full length, 'Descend Supreme Sunset' in 98, followed by 'Midnight In The Garden Of Hell' in 2000, 'Nigrium Nigrius Nigro' in 2005 and the latest, 'Thus Open Thine Eerie Wings Like An Eagle And Soar The Winds Of Chaos' in 2008, beside a couple Ep´s in between. The band had some ins and outs being nowadays, Bruno Correia (Gt/Vk), Bruno Bernardo (Gt) and João Marques (Dr).

ITU1- No, it's our fourth time in this festival.

ITU2- We are going to try to give a good concert, quick and concise and to try to play a little of each phase of our career.

ITU3- It is an important festival, with a history and an already quite strong cult, and is an honor for us to make part of the alignment again.

DESPISE comes from the Czech Republic and they exist since 1998. Their first release was the demo 'Confinement In Decrepitude' in 2001 followed by a couple splits and a promo in 2005. In 2006 they issued a best of, '7 Years of Chaos' and in the next year finally the first full length was out, 'Fragments Of Reprisal'. This Brutal Death combo is formed by, Sepp (Vk), Beavis (Vk), Dejvy (Gt), Jarda (Gt), Lopuch (Dr) and Ko3zy (Bx) after some changes throughout the years.

D1- Hi Nuno, great to hear from you! And thank you for your interest in Despise.. In fact, this is going to be our first gig in Portugal. We are very excited about the upcoming show at SWR Barroselas Metalfest.. And we are very happy that the tour is going to hit Portugal as well. It was such a shame two years back when we were on tour with Devourment and Viral Load that we did not make it to stop in Portugal too. In fact, this is what is making this tour special - that we will get to play in a country where we have never played before, especially with such cool bands like Insidious Decrepancy and Unmerciful!

D2- Only maximum and positive expectations! We always hear that the people in Portugal are fantastic and that the crowd can go crazy! Really curious to see whether people like the Despise shit as well or not.. We will definitely spill the blood for you guys! It is always our aim to perform at our best! We have a new line-up (a new drummer + a new bass player + 2 singers now), we have a couple of new songs and a lot of enthusiasm to play live after a few months of absence at the stages.. And what do we know about Barroselas Metal Fest?

Definitely that it is one of the most prestigious extreme metal fests in Portugal (if not the most prestigious :-)). We know it has been there for many years and that a lot of killer bands have played there.. It is a shame that we cannot stay for all three days and that we are going to miss bands like Origin, Absu etc.

D3- Well, hopefully the best what we can do.. We have been around for a couple of years and we still try to make our concerts better and better. Musically we have evolved from a slamming / guttural / heavy kind of death-grind towards faster, more technical and varied death metal with some hardcore influences and melodic touch.. Still keeping it brutal as well.. We love our music and have fun playing it live - and we try to transfer that energy to the crowd. And when we see that the people like too, that makes it even more intense for everybody.. Such interaction is unbelievable.. This is something that can only happen at death metal shows. See you all in hell! I mean - in the pit :-))

CRYSTALLINE DARKNESS hails from Portugal existing since 2006. Playing a kind of Ambient Black Metal they have released the debut demo, 'Melancólica Nostalgia' in 2008 and 'Delirios' a split with country mates Pestilência this year. The band is formed by Demoniac (Vk/Gt), Funeriis (Dr) and Effrenus (Bx).

CD1- Has a band yes! Personally I attend this festival it makes a couple of years.

CD2- They do not exist. The moment will be going to define our performance. In the middle of so much improvise and of emotional chaos it is almost impossible to determine the final result. It will be going to be different, like each concert that we give. Happen what to happen, already it is very important for us to step on that stage.

CD3- Barroselas is undoubtedly the biggest festival from Metal in Portugal. I have a great respect for the brothers Veiga in their determination and principally for the varied bills that we have been finding in the last six years. An organization that does not follow fashions and that contents itself with showing that there are not metal horizons that they do not include. It is undoubtedly a special festival for me. If it wasn't never I would be doing the sacrifices that I am to be present in it. And that the flame of Barroselas burns for very much more decades!

Coming from France, AD HOMINEM is playing their Black Metal since 1998. Two years later they released their only demo, 'Omnes Ad Unum', that would be followed by four full lengths, 'Planet Zog-The End' in 2002, 'A New Race For A New World' in 2003, 'Climax Of Hatred' in 2005 and 'Dictator-A Monument Of Glory' in 2009, in between they released an Ep, a best of and five splits with bands as Cantus Bestiae, Warfire or Geimhre. The band consists of, Kaiser Wodhanaz (Vk/Bx), Milite K. (Gt), D.Nacht (Gt) and Rust (Dr.)

AH1- Yeah indeed, A.H. never played there before.

AH2- I rather see the fest as an usual gig. It doesn't change anything for us. I don't have any idea of how the crowd will behave. I just know we'll give our best.

AH3- Violence and arrogance. Sending greetings? Maybe I'll do if they mosh hard. But from what I heard Portuguese are kinda gay in the pit. So let's see if the rumors tell the truth or not... See you there suckers.

EQUALEFT comes from Portugal, more exactly from Oporto city and they exist since 2003. They released their debut last year in the form of the demo 'As The Irony Prevails' a strong release of Thrash/Death. The band consists of Miguel (Vk), Nuno (Gt), Marcos (Dr), Rui (Vk), Tiago (Gt) and Alexandre (Bx).

E1- Yes, this is our first appearance.

E2- We are very anxious to play in Barroselas, over the top in the same day than The Haunted, a band that we appreciate very much, beside others that also will play. We will certainly give our best to show our sound to all those that don't know Equaleft.

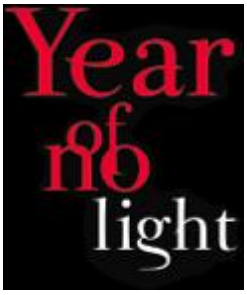
E3- Barroselas for us it symbolizes perseverance, spirit of sacrifice and Metal, much Metal! That will come twelve more editions! 😊

Austrian Dark Metal outfit DORNENREICH were formed in 1996, one year later their first demo was out, 'Mein Flügelschlag' followed by six full lengths namely, 'Nicht Um Zu Sterben' in 1997, 'Bitter Ist's Dem Tod Zu Dienen' in 1999, 'Her Von Welken Nächten' in 2001, 'Hexenwind' in 2005, 'Durch Den Traum' in 2006 and last year's 'In Luft Geritzt'. Throughout the years the band sonority changed a lot as in the first years they played Black Metal. Also they had a couple of changes in the line-up, being nowadays formed by Eviga (Gt/Bx/Vk) and Inve (Violin).

D1- No, back in 2001 we played in Porto with Marduk and I kept good memories concerning the city and the enthusiastic audience there.

D2- I have to admit that I don't know the Barroselas Metal Fest that good apart from the fact that I read some reviews about it now and then, but we are truly curious about it and we expect an temperamental audience, indeed.

D3- One can expect a very passionate and intense performance, doubtlessly. We hope to meet numerous Portuguese metal heads for we'll play both our acoustic show and the metal show on two days! See you all soon!



Coming from France, YEAR OF NO LIGHT will be showing their Sludge/Drone Doom Metal in the SWR stage. Formed in 2001 in Bordeaux, the band released their debut demo in 2004, followed by the first full length, 'Nord' in 2006. Being a sextet they consist of, Pierre Anouilh (Gt), Jérôme Alban (Gt/Kb), Bertrand Sebenne (Dr), Johan Sebenne (Bx), Shiran Kaidine (Gt /Vk) and Mathieu Mégemont (Dr).

YONL1- Yes and we're very excited about that. Since the release of our demo, we always had good support within the Portuguese metal scene. We've already planned to play some shows in your country but it always failed.

YONL2- We are much honored to be part of this "metal elite" fest. In the meantime, it's a kind of surprise for us: we're not metal, neither extreme. But can't wait to see Absu live! We don't expect anything, expect playing a decent show.

YONL3- YONL will present a bunch of new songs with the new line-up. Smoking some weed before we start is highly recommended.

INGROWING comes from the Czech Republic and are unleashing their Death/Grind since 1995. They debuted

in 1996 with the demo, 'Perverted Look At The World' followed by a couple splits before the first full length arrived in the shape of 'Cyberspace' in 98, then in 2001 time for 'Suicide Binary Reflections' and two years later, 'Sunrape' always with some splits in between the band released their last full length until now in 2006, 'Cloned & Enforced'. The band consists of, Patrik Stanek (Vk/Bx), Eddie (Gt) and Robert Kubik (Gt).

I1- No, this is our second gig in your country. First time we played there at Barroselas Metal Fest in the year of 2006. We still remember that gig, it was awesome! We hope we can play more gigs in Portugal in the future.

I2- As I said, we already played at SWR. So we probably know what to expect. But three years ago we were really surprised. Portuguese fans are crazy in the best sense. We played as the last band of the festival and it was probably one of the best gigs in INGROWING history. The crowd was just fantastic, we had to play around 70 minutes. We are really happy we can play there once again and I think we will enjoy that fest until the end!!!

I3- Something has changed during these three years. We have new drummer and we also have new mini CD. Fans can expect honest grindcore gig with everything what has to come with that. We hope that they will enjoy our new songs and support us like 3 years ago. We don't have so many occasions to play in Portugal, it's just a little bit far away from Czech republic. Therefore we have to play there the best gig what we are able to. You can trust us that we will leave our souls on the stage!!! And hope we will kick your asses! We can't wait it!!!! KEEP ON GRINDING!!!

ESOTERIC

English band ESOTERIC exists since 1992 and one year later they astonished the underground with the now mythic demo 'Esoteric Emotions-The Death Of Ignorance' a tape with over one hour of Funeral Doom /Death Metal. That was followed by 'Epistemological Despondency' the debut album in 94, 'The Pernicious Enigma' in 97, 'Metamorphogenesis' in 99, then a hiatus of five years stopped with the release of 'Subconscious Dissolution Into The Continuum' and last years, 'The Maniacal Vale'. Having a variety of changes throughout the years they nowadays consist of, Greg Chandler (Vk/Gt), Gordon Bicknell (Gt), Kris Clayton (Gt), Mark Bodossian (Bx), Olivier Goyet (Kb) and Joe Fletcher (Dr).

E1- yes, this is our first gig in Portugal. We are really looking forward to it!

E2- Well, we have no expectations really. We are just glad to have the opportunity to play there, so we will come and do our best to put on a good show and performance. We have been aware of the festival for a few years now. Some friends of ours have played there before.

E3- They can expect us to be entranced in our dark, heavy and nightmarish music, and perform with intense emotion and atmosphere. See you at Barroselas! Thanks for the support!

LEGACY OF BRUTALITY

Young Spanish band hailing from the region of Asturias LEGACY OF BRUTALITY was formed in 2006. Their debut was out under the form of 'Demon 2007', demo with three tracks of a powerful Death Metal. They consist of, Simón (Vk), Yoye (Gt), Borja (Gt), Lalo (Bx) and Javi (Dr).

LOB1- The SWR Fest XII will be our second concert in Portugal. We played in Guimarães last February, in the Violent Mardi Gras Fest. Great Sunday, great people!

LOB2- Without any doubt expect a crazy response from the public, as our brief experience and what has come to our ears on several occasions, the public gets mad and turns one hundred percent in every concert, with every band.

LOB3- People can expect from us beautiful people (hahahaha! Is a joke); can be expected simply Death Metal!, Much fury! Power!!! To the public: If you like the fast and furious death metal, cerveja (beer) and party, go to our concert!. Prepare your ears, neck and liver. Até breve! (See ya soon)

TORTURE SQUAD

Thrash/Death Metal band hailing from Brazil, TORTURE SQUAD was formed in 1990 releasing their until now only demo in 93, 'A Soul In Hell'. In 98 they unleashed their first album, 'Shivering' followed by 'Asylum Of Shadows' in 99,'The Unholy Spell' in 2001 'Pandemonium' in 2003 and 'Hellbound' in 2008. After some changes they are now, Vitor Rodrigues (Vk) Amilcar Christófaro (Dr), Castor (Bx) and Augusto Lopes (Gt).

TS1- Yes it is! We are very excited to play in Portugal! We heard that the Headbangers out there are hungry and maniacs for METAL!

TS2- My expectations are great, I mean, I always wanted to play in Portugal and now I get this chance. As I told you, I just heard from some friends from Ratos de Porão, Krisiun and Sepultura that the Portuguese crowds are amazing! About Barroselas Metal Fest, I have just read some articles in magazines and it will be fuckin' awesome to play there!

TS3- I can say that we will play our asses off on this concert and blow their heads away!!! Agora vou falar em português... Nós da Torture Squad estamos muito felizes em poder fazer esse show em Portugal e certamente será um show inesquecível para nós todos!!! Um grande abraço a todos!!!!

UNMERCIFUL

Brutal Death Metal coming from Texas, USA it's what you can expect from UNMERCIFUL. Born in 2001 they waited three years for the release of their debut demo, 'Weed Out The Weak' soon followed one year later by a Promo and in the next year a four way split. Seeing 2006 the release of their first full length, 'Unmercifully Beaten'. The band consists of Tony Reust (Vk), Clint Appelhanz (Gt), Justin Payne (Gt), Derek Engeman (Bx) and James King (Dr).

U1- Yes, this will be our first time in Portugal

U2- We have heard about the SWR fest here and there. All we heard was good things so we are coming in with a good expectation for this fest.

U3- For those who haven't heard us before, we just want to come across as brutal as possible. For those who have followed us we have a few surprises for them. It's gonna be a good time.

HACKSAW

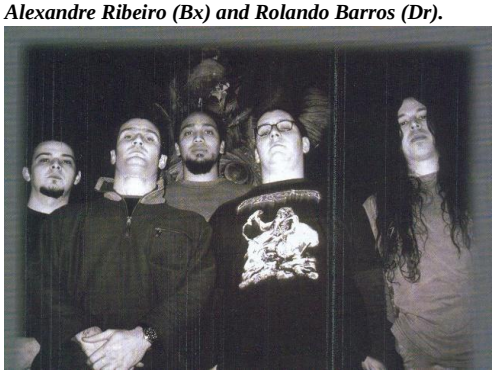
HACKSAW is a young band coming from Portugal although much of their members have a rich past in the Portuguese Underground. They formed in 2005 and one year later released their debut, 'Bind Torture Kill' a promo track of powerful Death Metal followed this year by 'Rise And Disobey' Ep. The band consists of, Luis Lisboa(Vk), Toni(Gt), Susana(Bx) & Barroso(Dr).

H1- Yes, while band (Hacksaw) is the first time that we are going to play there. Nevertheless, it is not the first time that we mark presence. Some of the members of the band there played already previous editions with other projects as well as, while audience, we were in several of these editions.

H2- Those of the custom, do all possible to offer a good show to the ones who will be going to see us! But, above all, our posture is essentially relaxed and uncompromised. What it matters is the fact that we feel well with what we do, in such a form that becomes possible to create an environment (equally) casually and contagious. If we manage to reach this step, we will feel carried out.

H3- Undoubtedly an example of effort and dedication! Twelve years after the first edition (and I take into account that the work began well before this first edition) keep on carrying out dreams of many lovers of the extreme music and on offering to all of those that go there a quite intimate and familiar environment, of pure rock'n'roll. Those who dare on those three days will have difficulty to forget the experience!

Veterans GROG exist in the Portuguese Underground since 1991 being probably the biggest reference in my country in the Brutal Death scene. Their debut was released a year after in the shape of the demo, 'The Bluuaaarrrggghh Rehearsal' soon followed in 93 by another demo, 'A Nauseating Sweet Taste'. 94 saw the release of the Ep, '95 Stabwounds In Your Throat' and 96 their first full length, 'Macabre Requiems'. In 99 they released one more demo, 'Regurgitate' and 2001 was the year of their last album until now, 'Odes To The Carnivourous'. After that they went into silence that was broken a couple of times with some live shows and now they are back. So, nowadays they are Pedro Pedra (Vk), Hugo Andremon (Gt), Ivo Martins (Gt), Alexandre Ribeiro (Bx) and Rolando Barros (Dr).



G1- No, it's our third appearance!

G2- We've always a great amount of motivation to play in this festival, as for the people in the organization as for the audience. In so we expect to have a typical gig of Grog with plenty of energy from both ends.

G3- It is a festival with "F" big, and it is of praising the whole dedication of the organizers who managed to have a festival with the importance that the SWR has, pairing with many festivals in Europe. It's 'THE' Metal festival in Portugal!

ECHIDNA is one of the newcomers that made more impact in the last year. Although they were formed in 2001, their first release only appeared five years later in the form of the demo, 'Tearing The Cloth' followed last year by the debut full length, 'Insidious Awakening', a statement of raw energy of Thrash/Death Metal. They consist of Pedro (Vk), Miguel (Bx/Vk), David (Gt), Pedro (Gt) and Tiago (Dr).

E1-Yes, this is our first time. In previous years came the possibility, but unfortunately it never happened for this or that motive.

E2- We expect a large underground audience, demanding but warm! We hope to share a little of that warm and to let know our debut album 'Insidious Awakening'.

E3- The Barroselas Metalfest is a surplus value for the North metallic scene and an example of perseverance. The festival grew very much in terms of bill, public, technical conditions and renown in the last years. Having presented worldwide recognized bands like Watain, Napalm Death or Enslaved in the last editions, together with the usual amount of national bands of all the metallic specters , the quality keeps on increasing and on demanding the annual visit to the festival.

Does anyone need introduction for SODOM?? ☺ Formed in 1982, they unleashed two demos, 'Witching Metal' in 82 and 'Victims Of Death' in 84 before recording the now mythic 'In The Sign Of Evil' Ep in 84. The first full length, 'Obsessed By Cruelty' was out in 86 soon followed by 'Persecution Mania' in 87, 'Agent Orange' in 89,'Better Off Dead' in 90,'Tapping The Vein' in 92, 'Get What You Deserve' in 94,'Masquerade In Blood' in 95, 'Til Death Do Us Unite' in 97, 'Code Red' in 99, 'M-16' in 2001,' 'Sodom' in 2006 and in 2007'The Final Sign Of Evil' besides a bunch load of Ep, best of and live albums. In the twenty seven years of life they had a couple of changes in the line-up being nowadays, Tom Angelripper (Vk/Bx), Bobby Schottkowski (Dr) and Bernd 'Bernemann' Kost (Gt).

S1- The first gig in Portugal was in 2002 at the "Headbangers festival" Open Air. That was a part of our M-16 Tour and I remember a very good festival with a wonderful and awesome audience of thousands hungry headbangers. Also the organisation was great and we had a good time, enjoying the brilliant weather.

S2- Yes, we expect a crazy crowd, why not? Hope there are a lot of Sodom Fans, so we will get supported by the fans. I don't know anything about this festival, but looking forward to be there.

S3- They will get an awesome set list with some classics, rarities and newer material with the typically and rough Sodom sound! Hope we will have a good time. Hi Sodom fans, see you soon and thank you for your loyal support all over the years, cheers, TOM..

Death Metal is what THERIOMORPHIC is going to unleash in Barroselas. Formed in Lisbon in 1997, they release in 2000 the demo 'The Human Masquerade' and the first album in 2005, 'Enter The Mighty Theriomorphic', three years later they were back in records releasing, 'The Beast Brigade'. Throughout the years the band had some changes in the line-up being nowadays formed by, Jó (Bx/Vk), Zé (Gt), Cláudio (Gt) and André (Dr).

T1- No, it's our fourth! We played before on the 2000, 2004 and 2006 editions!

T2- If it will be the reaction how in the previous times, I think that it will be a good concert. In other years, we were very well received, I think that this time there will be more people to know us and with pleasure of us seeing. Because of being also connected with an excursion for the festival and for the sale of tickets, I notice that it seems to be to a bigger search than in the previous years, which is a very good sign.

T3- For our part, our passages for the SWR were always important for the path of the band. Personally, I only didn't go to the first edition of the festival, therefore, to play in Barroselas it always has a very special meaning. It gives taste to see the form like the festival has been evolving in all the aspects and we wait that is so for many more years.

WE ARE THE DAMNED is a young band that was formed in 2007 although some of their members have been making music all over the years in other bands. Their first release was a full length issued in 2008 by the name of 'The Shape Of Hell To Come'. The band consist of, Sofia Loureiro (Vk), Ricardo Correio (Gt), Raul Vicente (Bx) and Paulo Lafaia (Dr).

WATD1-Yes!

WATD2- It's a show as any other! We don't make distinctions.

WATD3- It's a well known Fest and with all merit. It's, truly, a pleasure being on the Barroselas bill! An excellent festival!

ROMPEPROP is Grind Gore from The Netherlands and they were formed in 2001. Their first release was 'Menstrual Stomphulk' a Mcd in 2002 soon followed by 'Hellcock's Pornflakes' the first full length in 2003, then two splits, in 2004 with Spanish band, Tu Carne and in 2006 with Germans Gut. The band consists of Jores Du True (Dr), Dirty Dr Dente (Gt) and Bonebag Rob (Bx).

R1-No, it is the second time in Portugal, we did a show I think it was in 2005 at the Butchery at Christmas fest if I'm right that was our first time. I think no one is gonna forget that gig of us because we thought WOW Portugal in the south of Europe so bring your shorts and t-shirts. We arrived at a club on the highest part of your country and it was freezing inside. Though the booze and the insane crowd kept us warm for the night so it was a good but cold first impression.

R2- Well we checked the website and it looks pretty cool but we don't know about the past from the fest so.. Hope a lot of people show up and have a party with us, if not we party with the people who do show up. I heard we play somewhere at 2 o clock at night, are there people awake you think??

R3- We always go for a lot of groovy gory drunkass party with blood and some fuckin sick splatter gegalvaniseerde brokkelpulp spetterknetter vlokke pitchshifted vocals. That says enough I think, haha!! STAY AWAKE AND SHOW UP DRUNK AND TOTALY SHITFACED!! YOU BRING THE BOOZE, WÉ LL BRING THE MUSICK!! STAY SPLATTER, MATES

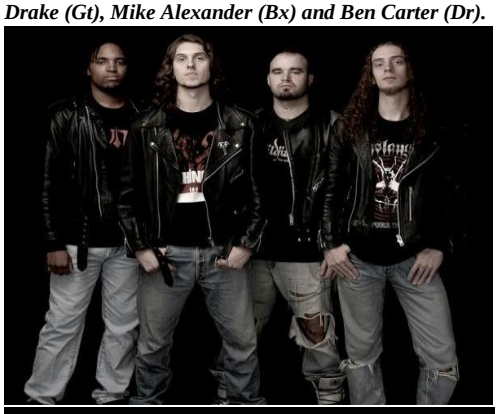
DEAD MEAT is a Brutal Death Metal band hailing from Portugal. Existing since 1993, their first release appeared in the shape of a demo entitled 'Promo'97' followed by another one in 98, 'Reflections Of Gore', three years later time for the 'Neurotic…' demo and in 2003 they released the Ep, 'I Liberate Your Soul To Condemn Your Flesh'. Their final work until now gives by the name of 'Gory Artwork' a demo released in 2007. The band consists of Dinis (Vk), Josen (Gt), Nuno (Gt) and Gabriele (Dr).

DM1- Yes, this will be our first destruction in a stage in Barroselas!

DM2- As I practically have been going there all the years, I know that will be a brutality, always been and always will be, so it is for that so that there we go!

DM3- It's without a doubt one of the best at a national Level and of course it's necessary to like what is done to maintain this slaughter annually, that so continues for many years!

Thrash Metal outfit EVILE is one of the best UK newcomers from the last couple of years! Formed in 2004, the same year they released the Ep, 'All Hallows Eve' followed a couple years after by the demo, 'Hell Demo' and in 2007 by the first full length, 'Enter The Grave'. The band consist of Matt Drake (Vk/Gt), OI Drake (Gt), Mike Alexander (Bx) and Ben Carter (Dr).



Norway's URGEHAL are unleashing their Black Metal since 1992 and a couple of years later they released their first demo, 'Ferd' followed by another in 95, 'Rise Of The Monument'. In 97 the first full length was out, 'Arma Christi', in 98 it was time for 'Massive Terrestrial Strike' followed by 'Atomkinder' in 2001, 'Through Thick Fog Till Death' in 2003 and 'Goatcraft Torment' in 2006, in between a couple splits, a Ep and a Best Of. The band consists of Trondr Nefas (Vk/Gt), Enzifer (Gt), Eirik Renton (Dr) and Mannevond (Bx).

NEHEMAH is a Black Metal band hailing from France formed in 1992. Their first release was in 95 with the demo, 'Light Of A Dead Star' followed only six years later by a demo self titled. In 2002 they released their debut album, 'Light Of A Dead Star' soon followed by a split, and two more albums, 'Shadows From The Past' in 2003 and 'Requiem Tenebrae' in 2004. After a couple changes, the line-up consists of, Corven (Vk/Bx), Sorghal (Gt), Dargon (Dr), Arawn (Gt) and Baar Hython (Kb).
